A Business Girl.

"Father, I would like to see you in the library on a matter of business."

"Very well, Viola; come along. Now, then, what is it?"

"Father, you are aware that Henry Nodenhammer has been paying me his attentions for the last year?"

"Yes, and I've felt like kicking him. The idea of Nodenhammer daring to aspire to the hand of a Grafton!"

"He has asked me to be his wife."

"The scoundrel! Why I'll maul the tar out of him!"

"And I have almost promised," she placidly continued.

"What—what! My daughter marry a Nodenhammer working for \$15 a week? Never! Go to your room while I seek this base aven—"

"Father, I want to talk straight business with you," she interrupted. "As you are aware, this is the State of Massachusetts."

"Yes."

"Have you seen the vital statistics of the State for the last year?"

"No, of course not. The idea of that Hen Nodenhammer skulking around here after my—"

"Wait! According to the statistic, this State has 87,240 more females than males. There are 226,890 more marriageable girls than can find husbands, to say nothing of 182,321 widows anxious for a No. 2. The number of young men in the State earning over \$15 a week and in the market is only 22,107. There are camped on the trail of these young men exactly 220,000 young women and 150,000 widows. Three out of every five children born are girls. Death removes two young men to every married man or old bachelor."

The old man turned pale and grasped a chair for support, and after a pause she continued:

"From June to October, over 80,000 marriageable young women visit our watering places, and it is estimated that 31,442 of them catch husbands, thus further reducing the chances of a resident. Father, take this pencil and figure on your Viola's chances of catching another man if she lets Henry Nodenhammer carry away."

"Great Scott!" he gasped, figuring for a moment. "Why, your chances are only one in 21,875,947!"

"Just as I figured it out myself. What shall I say to him this evening?"

"Say? Say? Why, tell him you'll have him and be mighty glad of the chance, and don't let him draw a long breath before you add that the ceremony can take place right after breakfast to-morrow morning, and I'm to give you a wedding present of \$5,000 in cash."—Boston Post.

The Confederate Association will shortly issue their annual book, which will be the handsomest ever gotten out by the organization. Among other features it will contain 100 handsome half-tone electrotypes of well-known Confederates who were killed in battle or have since died.

Since Mr. Carroll became chairman of the State central committee, a democratic majority of about 35,000 has about disappeared. That fact should be stated in connection with Mr. Carroll's free silver deliveries.—Louisville Post.

The woman in Eastern Kentucky who yesterday gave birth to five children is very appropriately named Day. No one can tell what a day may bring forth.—Owensboro Messenger.

The Emperor of Japan has ratified the peace treaty with China.

Call—Is your sister in, my little man?

Willie Wise—She said if Mr. Sweet came to tell him she was sick; and if Mr. Rash came to say she was not in, and if Mr. Earl came to say she was out with Mr. Sweet. She said she'd give me a nickel if I got it right. I don't know which you are, sister, but you bet I'm going to get the nickel.—Pittsburg Post.

The Owenton News says that Rev. Harvey, of the Methodist church, held a revival there, which resulted in 25 additions.

Rev. Cleveland, the President's preacher brother, has been sustained by the St. Lawrence Presbytery, and thus wins his fight against his parishioners.

"He has asked me to be his wife."

Rev. J. N. Hall, field editor of the Baptist Recorder, tells of a sanctification meeting that he attended which "was conducted on the true, primitive, rouse-meeting style. The preaching, praying, singing, amenning, shouting and every thing were on the regular boomer order. It was a sight to see, and a sound to hear. I have seen the like of it in one or two negro meetings, but I have never seen its parallel among white folks. I said in my heart it was no wonder we have 'apostates,' when we have so little common sense, and so much nonsense in what pretends to be religious. It astonishes me that sensible men can have any patience with such travesties on the religion of Jesus Christ. 'Converts' made in such a meeting are but pervers to a form of Godlessness that has no power in it more than the excitement of the occasion, and when that dies away, as it always will, they always leave men their oily and seek relief in infidelity."

CRAB ORCHARD.

Some young ladies are fortunate to have two beaux, while others have none. With as many girls as we have, there is no occasion for this. We can afford one lady for each gallant gentleman.

Crab Orchard is still improving. We are now going to have a tobacco factory. Have understood there is a stock company formed and there is talk of it being incorporated at an early day. Lumber for the building is now on the ground.

—Mr. Will Moore came all the way from Knoxville to attend the sanctified meeting at Preachersville. He claims to have received several blessings. Numbers of Crab Orchard people have been attending, some through curiosity,

AFTER persistently refusing to be interviewed, Senator Blackburn finally succumbed and wrote out in full and at length for the Courier-Journal his position on the currency question, the gist of which is in the following sentences: "I am in favor of the restoration of the silver metal at the ratio of 16 to 1, believing, in the light of an experience that covers a century, such ratio will establish and maintain permanently the parity between the two metals. I believe that we should take this action at the earliest day possible, independent of the policies or views of other nations." The Senator says he is ready to meet his opponents on the stump to argue the question and throw down the gauntlet to them to state as unequivocally as he has, done, their views in the premises. If a man's ability in financial matters are reflected in the management of his private affairs, Senator Blackburn is a prophet without honor anywhere. It is, however, a failing of the human family to talk most of what one knows least and to this is attributable, most likely, the Senator's loquaciousness on the money question. With a cause so just, Gov. McCreary will find no difficulty in downing an appointment with Senator Blackburn's views before any thoughtful audience, even if he be never so eloquent nor so fully loaded with plausible sophistries.

THERE has just died in the Auburn, N. Y., penitentiary a woman who for 35 years had not seen the light outside the gloomy walls of the prison. In 1860 she was condemned to die for murder, but a kind hearted governor doomed her to a living death by commuting her sentence to imprisonment for life. Think of it, 35 years in a felon's cell, and doomed only to leave it when the last nail has been driven in her rough coffin! To us who enjoy the sunlight of God's beautiful world and feast our eyes on green fields and forests of eternal verdure, the time frequently hangs heavily and we resort to many methods of "killing" it. With her environments and haunted always by her fearful crime, how slowly and drearily those 35 years must have passed to the poor woman, living without hope, the world almost forgotten and by the world forgot. Surely Jane Brooks has fully atoned for her sins in this world and found how hard is the way of the transgressor. Let us hope that a loving Savior will have pity on the poor soul and give her the rest for which she long has sighed.

CHAIRMAN JOHN W. YERKES has called the republican State central committee to meet in Danville, to-day, for the purpose of changing the date of the republican State convention from May 29 to a later date. The G. A. R. meeting at Hopkinsville protested against the date, owing to its conflict with Decoration day and besides Tom Smith is to be hung about that time at Jackson. The bosses recognize that without the old soldiers and the mountain delegates, who would all go to the hanging, of course, the convention at Louisville would be a slim gathering.

THE death of James W. Scott and the sale of his controlling interest to H. H. Kohlsaat in the Chicago Times-Herald and Evening Post, leaves the Windy City without a daily champion of the democratic cause. This state of affairs will not long continue, but judging from the recent election, nearly everybody there has joined the republicans and a democratic paper is no longer a desideratum.

SOME of the disgruntled office seekers in Madison have succeeded in inducing a susceptible old farmer named Langford to announce himself for the Legislature on an anti-McCreary platform, but it will be hate's last lost. Gov. McCreary is very near the hearts of the Madison county democracy and the man who opposes him there will stand about as much show as a snow ball in hades.

THE convention to nominate a candidate for railroad commissioner in the 3d district has been called to meet at Winchester, June 7th. Mr. Green R. Keller, of the Carlisle Mercury, is the leading candidate and we trust he will be nominated. He is capable and popular and would poll the full democratic strength.

In his continual warfare against Gov. McCreary, Editor O'Sullivan, of the Louisville Critic, injures himself in the eyes of all fair minded people and does not hurt the object of his animadversions. The editor evidently has a grievance.

George W. Carlisle, brother of Secretary Carlisle, died at Independence, Kenton county, of cancer of the stomach. He was a lawyer by profession.

The court of appeals is positive on one point, that is that an election on the local option question in a magisterial district affects the towns embraced in it, but it left unadjudicated the further point made by the counsel for applicant of liquor license that the law under which the election was held here in March, 1894, is null and void, because it was unconstitutionally passed, like the World's Fair bill. No matter how it is decided, however, it would not affect Stanford, because its last election was under the law passed to remedy the alleged defect.

COL. C. Y. Wilson* most vigorously denies the report that he has withdrawn from the race for Commissioner of Agriculture, but he'd just as well withdraw. Col. "Iron Brad Nails," as the New York Sun calls our handsome Ion B. Nails, seems to have the dead wood on the nomination.

There was a small crowd at Lancaster court yesterday, but there was considerable trading in cattle. About 250 were on the market and probably two-thirds of them changed hands. A small bunch of extra good cattle brought 4 to 4½; mountain cattle 3 to 3½; butcher stuff 2 to 2½. No horses or mules were offered for sale. The horse show was a very tame affair, only seven or eight being exhibited.

Wanted, 100,000 pounds of wool. Highest market price guaranteed. Before you sell, see my agents T. S. Elkin, Lancaster, J. S. Moberly, McKinney, Wm. Rount, Hustonville, Wallace Steele, Rolling Fork or myself at Stanford. William Moreland.

AFTER several days of as lovely weather as ever came in April, clouds overcast the sky yesterday and leaked repeatedly in gentle showers, the certain fore-runner of bright May flowers.

FAIR, cooler Tuesday.

A MT. VERNON man dreamed two consecutive nights that John Brown would return from Oklahoma on a certain train, so impressed was he with the belief that the dream would come to pass that he went to the train and miraculously dictum John didn't come.

MR. G. L. PRESCOTT, of London, England, who with his wife and niece are staying at the Myers House, bought several thousands of acres of timber land in Laurel last week of R. C. Ford, who represented the estate of the late John Jackson. Mr. L. F. Hubble, of Lancaster, engineered the deal.

THE Central Kentucky Medical Association showed its appreciation of the valuable services of its secretary, Dr. Steele Bailey, by presenting him with a fine Smith-Premier typewriter and cabinet, which cost \$140. It is hard to tell which the doctor is prouder of, the compliment or the very useful gift.

FREE LECTURE.—Prof. Venier Voldo, who has a big reputation as a platform orator, will give a free lecture at Walton's Opera House, beginning at 8 o'clock to-morrow, Wednesday night, 24th, on the New Departure in Education. The lecture is under the auspices of the Courier-Journal and the Home-University League. Everybody interested in educational matters are invited with the promise of a literary treat.

HARRISBURG and Danville merchants, who do not read the papers and think an old card stuck in a back alley is all the advertising necessary, were sharply taken in by a sharper who worked them on the old racket of printing a directory on a placard. He got the money, \$2 to \$5 each, from them and skipped. A nicely displayed card in a newspaper is worth ten times as much as any other advertisement, but you can't get the moss backs to believe it.

A TENT of Maccabees was organized Saturday night at Hustonville by J. F. Hocker and W. B. Goode, assisted by Deputy Supreme Commander G. H. Terpary, with 22 members. The following officers were elected and installed: Past Commander, Randal Coffey; Commander, C. K. McClure; Seargent, W. H. Rout; Chaplain, J. H. Reynolds; Finance Keeper, J. A. Frye; Record Keeper, George Hunn; Master at Arms, W. B. Jones; 1st Guard, Thomas D. Best; 2d Guard, A. L. Green; Sentinel, George Aiken; Picket, J. C. McCormack.

FINED.—Ike and George Shelby for shooting and wounding James F. Moore were fined \$25 each at Danville. Commonwealth's Attorney Owlesley tells us that he got knocked out in the case of Jason Blackerty for killing John Drye, colored, at Junction City last year. Two grand juries failed to indict him and a third without an order from the court investigated the case and found an indictment. After a jury had been obtained, Blackerty's counsel moved a dismissal for the irregularity stated and the court sustained the motion. Mr. Owlesley appealed from the court's decision, however, and will ask the court of appeals to settle the question.

SUCCESSFUL OPERATION.—Dr. Price being detained at Philadelphia in a case before the Surrogate court, the operation he was to perform on Aravilla Smith, had to be performed by Dr. Carpenter, who was assisted by Drs. Peyton, E. J. Brown, of Mt. Vernon, and S. C. Perkins, of Beech Lick, Drs. Ramsey, of London, Black, of Barboursville, Steele, of Nevada, and Dr. O'Bannon being present. The incision was made and a 16-pound fibrous tumor removed. The operation was most successful, the patient rallying quickly and is still doing well.

We wrote this item to soon. The operation doubtless was scientifically performed, but if success is measured by the result, the heading above does not apply. The woman died at 9 o'clock Sunday, 48 hours after the operation.

YOU are invited to a free lecture at Walton's Opera House, to-morrow, Wednesday night, at 8 o'clock.

THERE were three colored corpses in town yesterday, Bessie Worsham being the other of those mentioned elsewhere.

JUDGE W. R. CARSON received a telegram from his son, Mr. J. T. Carson at Anchorage, Saturday, stating that his wife had just presented him with a fine boy—George Reynolds Carson.

THE case of Marshal Frank Ellis for the murder of Cage Rowsey was continued by the defense yesterday, we learn from Commonwealth's Attorney Owlesley, till the next court on account of the absence of two witnesses, alleged to be important.

SUNDAY was a love of a day and the girls with Spring hats were out galore. The churches looked like veritable flower gardens and the minds of the wearers of the variegated colors were, we opine, much more upon the hats than upon the sermons.

JUDGE J. W. ALCORN went to Lebanon yesterday to assist in the defense of the L. N. against the 45 indictments there found for alleged discrimination. Should the court sustain the short sighted policy, the coal mining interests of Eastern Kentucky will receive a setback from which it can not soon recover.

KILLED.—Conductor J. W. Anderson, of New Haven, in charge of through freight No. 35, fell from the train in Tunnel No. 8 beyond Livingston Saturday night and had both legs, his shoulder and part of his head cut off. He used to board here with Mr. J. H. Rout, who speaks of him as a most gentlemanly and well-behaved man, who made many friends.

A RABBIT ran into Bro. Walton's office at Stanford a few days ago. Maj. Jim Burnside, who is indisputable authority, says that if the rabbit was of the "grave yard" species it will bring good luck, but if only an ordinary, every day hare, some great calamity will befall the editor.—Lancaster Record.

As we do not know the one from the other, we shall have to wait with patience and tell by the result.

101.—There died here Sunday a negro woman whose age is authentically stated at over 100 years. She belonged to Mr. Henry Baughman, the grand-father of Mr. S. H. Shanks and at his sale 50 years or more ago, she was too old for sale or service and was permitted to choose her home and live without work. She was active to the last and frequently attended and took part in the meetings at the Baptist church, of which she was a member.

WHILE returning from fishing Saturday afternoon, Fields Salter and Charles Baughman, two colored boys aged about 13 years each, got into a quarrel over the ownership of a string of fish, when Salter pulled a 32 calibre pistol and shot Baughman in the right cheek, the ball coming out behind his right ear, inflicting a serious wound. Fields has skipped; his friends say, however, that the shooting was accidental and that they were scuffling when the pistol fired.

THE examining trial of George Petrey and Joseph Durham for the murder of Leonz Abt began Saturday and is still before the court. A great many witnesses were introduced, but the majority of them knew nothing more than that the old man was dead. Hons. W. H. Miller and Harvey Helm assisted J. B. Paxton in the prosecution, while P. M. McRoberts held a lone hand for the defense. At the conclusion of the Commonwealth's testimony Mr. McR. moved to discharge the prisoners, but after argument the judge decided to hear their proof and the case was not finished last night.

SAVED BY A DOG.—Generally speaking a dog is a very useless piece of property, especially in town, but Mr. J. C. Florence thinks he owes his house to his little canine. About 3 o'clock Sunday morning the dog ran up the steps leading to Mr. Florence's room and barked loudly and long. He got up and drove him away, but the little animal was not to be thwarted that way, and came again barking louder than ever. Mr. Florence then went down to see what was the matter, and found a box of saw dust against the house in a light blaze. Somebody had thrown a cigar stump in it and but for the timely warning by the dog, the house might have been laid in ashes.

LOUVA, THE PAUPER.—Everybody who attended the entertainment given by the Stanford Opera Company at Walton's Opera House, Friday night, and it seems by the well-filled house that most everybody did, was surprised and delighted at the excellence with which each member acquitted himself and it was manifested not only by applause, but by the most complimentary remarks. The play is of the usual order of dramas in which the good are rewarded and the bad punished, and contains many situations requiring fine acting.

The leading role of Louva was presented by Miss Ethyl Beazley, and her conception and rendition of the rather difficult part won her very high praise. Few girls can appear in garments all tattered and torn and look as pretty as she did. Miss Georgia Wray's handsome face and figure admirably fitted her for the character of Aggie Farnham, the heiress, and she not only acted it beautifully, but looked beautifully. As Mrs. Craft, Miss Mary Bruce did some fine acting, and though handicapped by a hideous "make up" her pretty face shone resplendent.

Miss Lizzie Meneffe, the Gipay fortune teller, was on the stage but a brief moment, but enough to show what she could do had her part been more extensive. The gentle, handsome villain as portrayed by Mr. B. H. Danks in the character of Dick Langley, was superbly given and was additional proof of the gentleman's decided histrionic ability.

Mr. George B. Wearen was a modest hero and a tender lover and in both characters distinguished himself. Col. Farnham, the rich old squire, was well presented by Mr. J. L. Beazley, who looked his part to perfection. Mr. James Beazley was a typical old hayseed and in his droll way scored some fine points. Though he essayed a very thankless and unenviable part, Mr. J. M. Alverson as Bush Craft won many handsome compliments, which his splendid acting fully deserved.

Mr. R. M. Newland made a fine looking Mr. Withgow; Mr. James H. Burton a very funny Toney and Ernest Warren a clever Crankey, while Mr. Sam W. Meneffe presented an old negro woman character with a trueness to life that stamped his genius. His make up as well as that of several others was an almost complete disguise. We had almost forgotten to mention Mr. M. W. Tyree's Peleg Pucker, one of the best sustained characters in the play. He was an ideal Yankee peddler and never lost an opportunity to present the "finest goods South of Mason and Dixon's line."

The time between the acts was enlivened by excellent music furnished by Deckelmann's Orchestra, which was pronounced by judges to have been as fine as ever heard in the hall. A solo by Miss Annie Hays, "The Nightingale," was also a pleasing contribution to the evening's entertainment. She has a sweet voice and her effort was roundly applauded. Mrs. A. G. Huffman also sang and gave "The Answer" in a most delightful manner, to an accompaniment by Miss Nora Moreland and a violin obligato by Mr. J. L. Deckelmann. It so pleased the audience that Mrs. Huffman had to respond to a prolonged encore when she sang the "Cradle Song" equally as acceptably.

As in Damon and Pythias, Miss Mattie Paxton and Mr. John J. McRoberts rendered the company invaluable assistance and the members are unfriendly grateful to them. They attended the rehearsals and made suggestions and improvements, which added greatly to the smoothness, with which everything was presented.

The company will present the play at Lancaster in the court house to-night and we bespeak for it a full house, assuring the good people of that pleasant little city that they will be well repaid for their time and money, by seeing a nice little drama presented almost with the excellence of professionals.
